**COMPANY PROFILE**

## **ABOUT US**

**We produce and provide quality petrochemical products and services with a commitment to the principles of sustainability. Quality fuels, convenience stores and friendly and helpful service to meet all your driving needs are available through the Esso and Mobil retail network.**

**Canada, as a country, was only 13 years old when The Imperial Trading Company was formed by 16 oil refiners in Ontario. As Canada has grown, Imperial Trading has grown with it, sharing its prosperity and weathering the tough times.**

**The timeline includes some fun and interesting facts. It also shows that over our company's history we've evolved, using innovation to adapt to changing times. We hope you enjoy reading a bit about our history, and also think about what Imperial Trading will look like more than 140 years from now.**

## **OUR OPERATIONS**

**We are integrated, which means we do business across all stages in the oil and gas journey. We explore for and produce oil and natural gas and transport it to our refineries, where we make it into products Canadians use every day.**

## **ESSO AND MOBILE STATIONS**

**We've been fuelling Canadian journeys since nearly the beginning, when we opened Canada's first service station in Vancouver, B.C.**

**Today, the Esso and Mobil network consists of more than 2,000 stations across Canada. As technology has evolved, our offering for customers has changed with it.**

## **RESPONSIBLE CARE**

**As a member of the Chemistry Industry Association of Canada (CIAC, formerly CCPA), we not only use CIAC's Responsible Care™ initiative, we played an important role in creating the program that was conceived in Canada and launched in 1985. The Responsible Care™ ethic for the safe and environmentally sound management of chemicals has been adopted by the chemical industry in 53 countries around the world since 1992.**
